TDS Revision Date (dd/mm/yyyy): 09/07/2025

TECHNICAL DATA SHEET

Update:

July 9, 2025

Make sure you have an updated data sheet on hand.

Canada and U.S. dial **1-855-847-7767** or (450) 624-1611

Description:

GATOR XTURF NAIL 6" is a high-quality, spiral non-galvanized nail that holds and stabilizes your artificial turf around the perimeter using **GATOR XTURF NAILS** every 4"-6" on the perimeter and spaced 12" every 6' across the turf surface. You must also ensure that the **GATOR XTURF NAILS** lie flat against the substrate without any turf blades being stuck. They will also be used to stabilize the **GATOR XTURF SEAM TAPE**. The 6" **GATOR XTURF NAIL** is designed for use with the **GATOR XTURF CLASSIC & PREMIUM** types.

Ideal for:

- Holding in place SEAM TAPE
- Holding in place ARTIFICIAL TURF

Features:

- Non-galvanized
- Spiral nail
- Nail head design for artificial turf application

SECURE GATOR XTURF ARTIFICIAL XTURF AND GATOR XTURF SEAM TAPE IN PLACE WITH GATOR XTURF NAILS

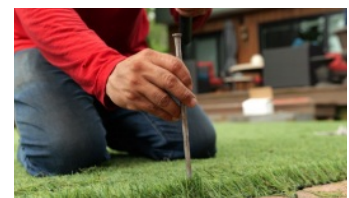

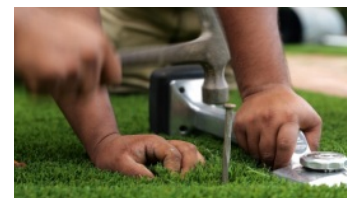

JOINING THE GATOR XTURFS

When the **GATOR XTURF SEAM TAPE** is in place, secure the positioning of the **GATOR XTURF SEAM TAPE** with the help of two 6" **GATOR XTURF NAIL** nails at both extremities. It's time to spread out some **GATOR XP GLUE**. These **GATOR XTURF NAILS** and **GATOR XTURF SEAM TAPE** will be covered when the **GATOR XTURF infill sand** is installed.

SECURE GATOR XTURF WITH GATOR XTURF NAILS

The 6" non-galvanized spiral **GATOR XTURF NAIL** should sit 1/4"- 1/2" away from the edge of the **GATOR XTURF** and be nailed every 4" to 6" apart. Every 6 feet from the edge in the roll direction, use a Knee Kicker to remove any loose folds or wrinkles from the **GATOR XTURF**. Secure the turf in place with 6" spiral **GATOR XTURF NAILS** every 12 inches in a straight line. They should be flat against the backing with no turf blades trapped down.

Note: For putting green, 4" non-galvanized finishing nails will be used.

Packaging:

Product
GATOR XTURF NAILS

Weight
50 lb (22.7 kg)

Per box
730-740 nails
